**Subject:** COVID-19 Sanitization Products and PPE Needs Assessment Survey

Anyone in the agriculture or food sector who is experiencing shortages of products such as hand sanitizers, hand wipes, gloves, masks, etc. is encouraged to respond to the survey below to make your needs known to the federal government.

Agriculture and food businesses are essential and part of Canada's critical infrastructure. Please participate in the needs assessment survey by clicking the following link: <https://report-rapport.ps-sp.gc.ca/s.asp?k=158524877596>

**Subject:** COVID-19 Sanitization Products and PPE Needs Assessment Survey – Évaluation des besoins de produits d'assainissement et d'ÉPI dans un contexte COVID-19

Recognizing that the spread of COVID-19 has created shortages in sanitization products and Personal Protective Equipment (PPE), Public Safety Canada is seeking input from critical infrastructure owners and operators to better understand the scope of potential shortages in Canada. In particular, we are seeking input through a [needs assessment survey](https://report-rapport.ps-sp.gc.ca/s.asp?k=158524877596) (<https://report-rapport.ps-sp.gc.ca/s.asp?k=158524877596>) to gather information on the quantity and types of products/equipment that is required across the essential services and functions in Canada.

Please note: This questionnaire is voluntary. We ask that no personal information about yourself or another individual be included. Should personal information be received, it will not be considered and it will be deleted. Results will only be shared in aggregate form, and will be used for discussion through existing engagement mechanisms, including the National Cross Sector Forum on Critical Infrastructure.

*This survey is being shared with CI owners and operators, Provincial and Territorial government partners, and national associations related to CI. Please feel free to share this link with other organizations in your industry.*

Thank you,
